FY2011 University of Missouri All Funds Budget Summary

The Board of Curators approved a FY2011 all funds original budget with revenue of approximately \$2.6 billion dollars. This budget included \$2,519.8 million for current funds and a combined total for loan, endowment and plant funds of \$73.6 million. The table below shows the total budget by major source of revenue and object of expense.

* Capital appropriations budget was based on anticipated receipts for current capital appropriation projects, some of which have spending restrictions.

The total budget is made up of several component budgets; current funds, loan funds, endowment funds, and plant funds. The loan fund activity is a revolving fund and the loan terms are driven by the terms of loan resources. Endowment fund revenues are driven by the Board's asset allocation policy and market performance, and expenses are driven by the payout policy. The resources that cover plant fund expenditures are budgeted in other funds and are transferred into the plant fund as expenses are incurred, with the exception of major capital projects which the Board approves individually by project. The loan fund, endowment fund, and plant funds

combine to make up 3% of the all funds budget. Current funds make up the remaining 97% of the budget and are described in detail in the following sections of this document.

FY2011 University of Missouri All Funds Budget

Loan, Endowment & Plant Funds:

For this analysis loan, endowment, and plant funds have been combined due to their relative magnitude. Loan funds are used to record activity of funds available for loans to students. Endowment and similar funds include all gifts, bequests, and other funds directed to be used to support a University program in perpetuity. Eighty-nine percent of the endowment fund is restricted for use by donors and most of the remaining eleven percent has been designated by the Board or administration for special use. The plant fund group is used to record acquisition and replacement of assets, to pay off debt and to record the net investment in assets (equity) from both current expenditures and reserves for renewal and replacement.

Projected revenues for this group of funds are anticipated to be \$73.6 million and are comprised of:

- \$8 million in state appropriations receipts for capital projects during FY2011
- \$38.2 million in gift income for loans, endowments and capital projects
- \$27.2 million in endowment and investment income
- \$0.2 million in other income

Current Funds Budget:

When the plant, loan, and endowment funds are removed from the University's total budget, the current funds, what we term operating funds, remain. Detailed descriptions of the current funds budget are provided in the following section.

University of Missouri System FY2011 Operating Budget

Introduction and Overview

Introduction

The University of Missouri System Operating Budget Book presents information on total sources and uses of the University's current funds. Sources of funds include estimated beginning balances and anticipated revenues. Uses of funds include expenditures, transfers, and planned ending balances. Current funds include resources of the University that are expendable for any purpose directly related to the primary missions of the University, i.e., instruction, research, and public service, as well as related support services. Current funds can be divided into restricted and unrestricted funds. Restricted funds are those that are restricted in use by the donor or supporting agency.

Context for Budget Planning

Budget planning and development for fiscal year 2011 was guided by the policy decisions and planning parameters of the Board of Curators and by the program decision items approved in the FY2011 Appropriations Request for Operations. Net tuition and fee revenues included in these budgets are based on flat tuition and required fee rates. The increase in net fee revenues included in the budget is driven by enrollment changes related to student mix, enrollment growth, and financial aid. Expenditure assumptions for planning included the following:

- The salary and wage principles presented to the Board at the April 2010 meeting, include a compensation contingency pool of approximately 1% of the campus's salary and wage base. These principles, listed below, are the basis for the salary and wage budgets.

2011 Contingency Salary Pool

Typically at this time of year the Board of Curators approves the amount and distribution principles of an annual salary merit pool. Given the current economic situation we are recommending no salary merit increases for FY2011. Regardless of campus resources, the campuses would be prohibited from giving merit increases. However, similar to last fiscal year, we are recommending the establishment of a 1% contingency salary pool to cover select types of salary increases which may occur throughout the 2011 fiscal year. Faculty promotions are the most common example. Academic progression (e.g., Assistant Professor to Associate Professor) and/or the award of tenure typically include salary increases in addition to annual merit increase. As recommended, for FY2011 any select types of salary increases would be funded through the 1% contingency pool, subject to campus specific guidelines and approval process.

- Non-FICA benefit costs are funded by a flat rate charged against benefit eligible salaries. The flat benefit rate for the campuses has increased by 1.5% to 22.72% for FY2011 due primarily to increased costs of the medical plan and the retirement plan. The Hospital

benefit rate increased as well to 24.66%. For each dollar increase in salary, non-FICA benefits equal to the flat rate plus appropriate FICA will be required.

- Other operating cost increases are made up of several types of unavoidable costs such as utilities, insurance, the cost of opening new buildings, other necessary increases in the cost of ongoing operations, and additional required M&R expenditures to meet the 1% of facilities replacement value policy. However, due to cost containment efforts, most of the expenditure increases are primarily the result of increased volume in the auxiliaries and hospitals. Overall, budgeted expenditures in this area decline due to the impact of cost containment and other budget reductions.
- Given economic conditions, the President has asked the general officers to take whatever actions are necessary to balance the budget in FY2011 and prepare for budget challenges in FY2012. The cost control efforts begun in FY2009, which included a hiring freeze as well as ongoing travel and other expense reductions, will continue. Those actions that resulted in permanent budget changes are reflected in the FY2011 budget.
- Investments for other strategic priorities are campus specific commitments primarily for academic priorities. These new investments are reflected in the budget in various expenditure categories as some of the expenditures will be for personnel and others for equipment and operating expenditures.

The budgets reported in this document are based on the original detail budgets for the University as entered into the PeopleSoft general ledger financial system as of June 30, 2010.

Withholding of State Appropriations

State appropriations for the University of Missouri are subject to a 3.0% withholding by the State of Missouri. The University's FY2011 budget was developed and entered into the University's financial system based on the assumption that state appropriation revenues would equal 97.0% of state funds appropriated to the University. For the operations fund, there was a decline in recurring appropriations of 5.2% over FY2010. Other changes in state appropriations are comprised of:

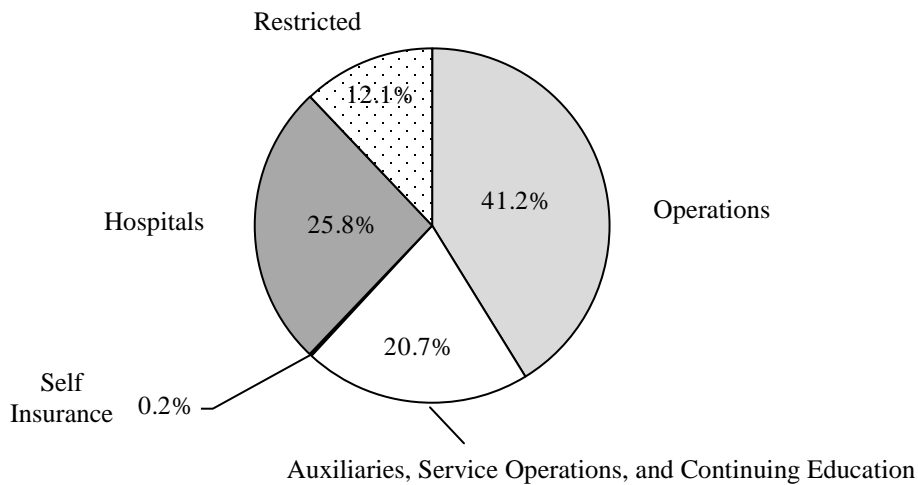

- \$5 million or 22% decline in Hospital appropriations
- \$10 million decline of restricted recurring state appropriations supporting other curator programs, which results in a 40% decline for these programs
- Individual program budgets were cut between 16% (State Historical Society) and 70% (Missouri Institute of Mental Health)

Total state appropriations are budgeted to decline \$96.7 million when compared to the FY2010 original budget. \$35 million of the decline is due to capital appropriations from prior years that were anticipated to be received in FY2010 and were subsequently vetoed or withheld. Additionally the FY2010 original budget included one-time state appropriations for Caring for Missourians. Recurring cuts to the core make up the remaining budgeted decline.

FY2011 Current Funds Budget Summary

Current funds can be divided into restricted and unrestricted funds. Restricted funds are those that are restricted in use by a third party such as the donor or supporting agency. For fiscal year 2011, the University of Missouri's current funds budget totals approximately \$2.5 billion. Of the total current funds budget, 87.9% is unrestricted and 12.1% is restricted. The current funds budget is made up of the University's operations fund, as well as the operating budgets for the Hospitals, auxiliary enterprises, continuing education, service operations, self-insurance funds, and restricted funds.

Current Funds Revenue Budget

The largest piece of the current funds budget is the operations fund. The operations fund is where the majority of the University's instructional and public service activities are budgeted and accounted for. The operations fund comprises approximately 41.2% of the institution's current funds budget. This is the part of the institution's budget that is funded primarily by tuition and fees and state appropriations for operations.

The next largest component is the University Hospitals and Clinics, which contributes 25.8% of the current funds budget. Other enterprise like operations, which includes auxiliary enterprises, service operations, and continuing education, make up 20.7% of the current funds budget. Auxiliary enterprises are self-supporting activities whose services are provided primarily to individuals in the University community such as students, faculty, and staff, and may incidentally offer services to the public. Examples include residential life, bookstores, parking, and intercollegiate athletics. Service operations provide a specific type of service to departments or other organizational units within the University rather than to individuals. These activities are supported by internal charges to the using department. Examples include campus computing, mail operations, printing services, telephone services, and science instrument shops.

Continuing education includes distance education and other off campus credit and non-credit courses as well as on campus continuing education programs.

The self-insurance funds budget makes up 0.2% of the current funds budget and includes medical benefits, dental benefits, educators' legal liability, medical malpractice, auto and general liability, long-term disability, and workers' compensation. Restricted funds are comprised of grant and contract activities, as well as activities funded by endowment distributions, gifts, and restricted state appropriations. The restricted grants and contracts budget is developed at a campus level and represents an estimate of the fiscal year activity of the more than 2,400 individual grants and projects that are budgeted and managed on a project by project basis.

The total FY2011 current funds budget includes an estimated beginning balance of \$990.3 million and anticipated revenues of \$2.5 billion, for a total source of funds of \$3.5 billion. Planned expenditures of \$2.3 billion and transfers of \$237.8 million combine for a total planned use of funds of approximately \$2.6 billion. The FY2011 current funds budget includes a planned decrease in ending balance of \$55.6 million.

The distribution of the total current funds revenue budgets by major type of fund is shown in Table 1, for each campus, UM Extension, the Hospitals, and UM system units.

Revenues

The total FY2011 current funds revenue budget at approximately \$2.5 billion is 2.0% higher than the FY2010 original budget. The chart on the next page on the left shows the current funds revenue budget by source of funds. The chart on the right shows the further distribution of the sales and services budget by type.

Current Funds Revenue

Sales and Services Revenue

Sales and services are the largest contributor of current funds revenues at 44.7%. Sales and services are comprised of three types of activities: Hospitals & Clinics, other auxiliary enterprises, and educational activities. The chart above at the right shows the distribution of sales and services revenues (including patient revenues) for each of these three types of activities.

Sales and services of Hospitals & Clinics, totaling \$624.5 million, make up 55.4% of the sales and services budget for current funds revenues. These are funds primarily derived from the combined clinical operations of the University of Missouri-Columbia Hospitals & Clinics, Ellis Fischel Cancer Center, Columbia Regional Hospital, Missouri Psychiatric Center and the Missouri Rehabilitation Center. Not included in this category are funds generated from the University Physicians' clinical operations, which are part of the University of Missouri-Columbia Medical School's physicians' practice plan.

Sales and services of auxiliary enterprises totaling \$458.2 million, or 40.7% of the current funds sales and services budget, include revenues from essentially self-supporting activities that provide services and sales primarily to students, faculty, staff and patients. These include housing and dining halls, intercollegiate athletics, bookstores, parking operations, student unions, recreational facilities, the television station, University Physicians clinics, veterinary medicine clinics, and other miscellaneous activities.

Sales and services of educational activities, totaling \$43.4 million or 3.9%, include the operations of the dental and optometry clinics, as well as activities related to the UMKC medical residency program, Agricultural Experiment Station, Cooperative Extension, and other activities.

Gross tuition and fee revenues of \$644.1 million are the second largest source of revenue and contribute 23.5% of the gross current funds revenue budget. Scholarship allowances, or financial aid, reduce revenue from student fees to \$428.4 million or 17.0% of total net revenue, making it the third largest contributor of total net revenue. Tuition and fees of \$599.1 million are recorded in the operations fund and another \$44.8 million are in continuing education.

State appropriations, at \$444.6 million, comprise the third largest source of gross current funds revenue. However, once student fee discounts have been applied to gross fees, state appropriations becomes the second largest contributor of total net current funds revenues at 17.6%. State appropriations include \$415.1 million in the operations fund for the general mission of the University, and \$18.2 million for University Hospitals & Clinics. Restricted appropriations for the Missouri Institute of Mental Health, Missouri Kidney Program, the Missouri Research and Education Network (MOREnet), Missouri Telehealth Network, and Spinal Cord Injury Research total approximately \$11.3 million.

Federal, state, and other grants and contracts combine for total projected revenues of \$346.6 million, or 13.8% of the total current funds revenue budget. These revenues are an estimate of the funds that will be received during FY2011 and are restricted in nature.

Other revenue sources include federal appropriations (primarily for the Agricultural Experiment Station and Cooperative Extension), investment income, gifts and endowment income (primarily for student aid and chairs/professorships), recovery of facilities and administrative costs (recovery of F&A), which are generated from externally funded grants and contracts, and miscellaneous income.

Table 2 on the following page, shows the percentage distribution of current funds revenues by major revenue source for each campus, UM Extension, the Hospitals, and the system administrative units. Tuition and fees net of financial aid is the largest source of revenue for the Kansas City and St. Louis campuses. State appropriations is the largest contributor for UM Extension, Missouri University of Science and Technology, UM System Administration and U-wide Resources. Sales & services of educational activities and auxiliary enterprises is the largest source of revenue for the Columbia campus and the Hospitals (Patient Services). State appropriations are the second largest source of funds for Kansas City, St. Louis, and the Hospital. Net tuition and fees are the second largest source for MU and Missouri S&T, state grants are second largest for UM Extension, and sales & services of educational activities and auxiliary enterprises is the second largest source for the UM System Administration. Endowment and investment income is the second largest for U-wide Resources.

Expenditures

Compensation expenditures of \$1.6 billion account for 62.3% of current funds expenditures and transfers in FY2011. Salary expenditures total \$1.3 billion and employee benefits expense is anticipated to be \$0.3 billion. Expense and equipment and capital expenditures of \$733.5 million contribute 28.5% of current funds expenditures and transfers. Mandatory transfers of \$69.0 million account for 2.7% of the budget and are primarily for debt service. Non-Mandatory transfers of \$168.8 million make up the remaining 6.5% of the current funds budget. They are comprised of \$106.4 million to fund the hospital's capital plan, \$40.1 million in the auxiliary operations primarily for maintenance, repair, and replacement of facilities and capital equipment, \$17.5 million from the operations fund primarily to the plant fund for investment in the purchase, maintenance, repair, and replacement of facilities and capital equipment for information technology including the next generation network, energy management/utilities, and research parks. The balance of approximately \$4.8 million is from restricted funds.

Expenditure Budget by Program

Primary program activities of instruction, research, and public service make up 47.5% of current funds expenditures at the University of Missouri. Hospitals account for 24.7% of the expenditure budget. Auxiliary enterprises make up 8.0% of the expenditure budget and the remaining 19.8% of budgeted expenditures are spent for support services, scholarships, and operation and maintenance of the physical plant.

Table 4 shows the percentage distribution of the University's current funds expenditure budget by major program classification for each campus, UM Extension, the Hospitals, and UM system units.

Note 1: University of Missouri Extension is a cooperative effort administered by the University of Missouri - MU

Note 2: The majority of student aid is treated as a reduction of revenue rather than as a scholarship expense.

Table 5 on the following page presents the FY2011 University of Missouri consolidated current funds revenue budget by major revenue source, and the expenditures and transfers budget by object of expense and by major program classification, for the following fund groupings:

- Operations
- Auxiliary Enterprises, Service Operations, and Continuing Education
- Self Insurance Funds
- Hospital Operations
- Restricted Expendable Gifts, Endowments, and State Appropriations
- Restricted Grants and Contracts (fiscal year estimate of project budgeted funds)

Tables 6 through 13 provide the same information for each campus, as well as for the Hospitals, University of Missouri Extension, University of Missouri System Administration, and University-wide Resources.

University of Missouri System FY2011 Operations Fund Budget Summary

The operations fund is where the majority of the University’s instructional and public service activities are budgeted and accounted for. The operations fund comprises 41.2% of the University’s current funds budget. State appropriations are recorded here, with the exception of those appropriations that are line itemed for the University Hospitals and the other Curators’ programs. The majority of student fees are also recorded in the operations fund. State appropriations and tuition and fees are the primary sources of revenue in the operations fund. Historically these two sources of funds accounted for 91% of operations fund revenues, before scholarship allowances are applied. However, in recent years, they have dropped to 86.5% of gross operations fund revenues. Of the FY2011 budgeted gross operations fund revenues, 51.1% comes from tuition and fees before student aid and 35.4% comes from recurring state appropriations.

Gross Tuition and Fees and State Appropriations

The operations fund revenue budget for the University of Missouri System for fiscal year 2011 totals \$1.04 billion, net of student aid or scholarship allowances of \$134.7 million. The State of Missouri normally withholds 3.0% of the gross state appropriations; therefore, state funds are budgeted at 97.0% of the amount appropriated.

Table 14 on the following page, displays the FY2011 operations fund budget by source of funds and expenditure category along with the revenue contribution and the expense distribution percentage. Gross tuition and fees of \$599.1 million contribute 51.1% of gross revenues, making

them the largest contributor of gross revenues. Recurring state appropriations contribute 35.4% of gross revenues. When scholarship allowances, or financial aid, are netted against tuition and fees in accordance with GASB 34/35 the net student fees contribution declines to 44.7% of net revenues, however they are still the largest contributor with \$464.4 million. State appropriations, in the amount of \$415.1 million, is the second largest source of net revenue at 40.0%. Together, they fund 84.7% of the operations fund budget.

Tuition and fees (net of scholarship allowances) and state appropriations are the primary sources of revenue for all four campuses. These two sources of revenue fund 85.8% of the operations fund budget at the University of Missouri-Columbia, 83.3% at the University of Missouri-Kansas City, 89.7% at Missouri University of Science and Technology, and 95.8% at the University of Missouri-St. Louis. University of Missouri Extension is funded primarily by state and federal appropriations. At the University of Missouri System Administration, the major sources of funds are state appropriations and endowment and investment income. The only source of revenue for University-wide Resources is state appropriations.

The pie chart on the following page shows the percentage distribution of the operation fund budget. Compensation expenditures make up 77.9% of the operations fund budget. Salaries and wages of \$636.8 million, account for 61.3% of the budget and employee benefits estimated at \$172.7 million account for another 16.6%. Expense and equipment expenditures of \$213.3 million are 20.5% of the total. The remaining 1.6% represents net transfers from the operations fund to other funds. Internal transfers into the operations fund are primarily from continuing education and auxiliaries, due to full costing, and internal transfers out are to support research and endowed chairs matching commitments. The result is \$9.4 million net internal transfers into operations. The \$25.1 million of mandatory and non-mandatory transfers out are primarily to the plant fund for debt service, maintenance, repair, and replacement projects including information technology.

Operating Funds Expenditure Budget

Table 16 displays the percentage distribution of the operations fund expenditure budgets by object of expense by campus for FY2011. Compensation accounts for the majority of the expenditures for each unit except University-wide Resources, which primarily budgets funds that are used for Endowed Chairs.

As shown in Table 17 on the following page, 60.3% of the recurring expenditures for the University system in the operations fund budget are devoted to the primary missions of instruction, research, and public service. When academic support is included, this distribution reaches 72.9%. Other classifications are student services, with a system total of 5.7%, institutional support, of 11.3%, operation & maintenance of physical plant of 10.1%, and scholarships and fellowships less than 0.1%. Most student aid is shown as scholarship

allowances, a reduction of tuition and fee income, as directed by GASB 34/35 instead of being shown as scholarships and fellowships expenditures.

Tables A1 through A7 in the appendix present the operations fund expenditure budgets by administrative division for each campus, University of Missouri Extension, UM System Administration, and University-wide Resources. The tables provide summary totals for salaries & wages, employee benefits, other operating expenses, capital expenditures, and transfers (by type), for each college, school, and division.

Tables A8 through A15 in the appendix present the operations fund budget by minor program classification (PCS) category for the campuses, University of Missouri Extension, UM System Administration, and University-wide Resources. The tables provide summary totals for salaries & wages, employee benefits, other operating expenses, capital expenditures, and transfers.

FY2011 Other Curators' Programs Budget Summary

In addition to the general state appropriation for the operations of the University, the Curators receive line-itemed state appropriations for the University Hospitals & Clinics, Missouri Rehabilitation Center, Missouri Kidney Program, Missouri Institute of Mental Health, Missouri Telehealth Network, Spinal Cord Injury Research, Missouri Research and Education Network (MOREnet), and the State Historical Society of Missouri.

Table 18 presents summary budget data for the Missouri Kidney Program, Missouri Institute of Mental Health, Missouri Telehealth Network and Spinal Cord Injury Research. These programs are recorded as restricted current funds.

* The Governor imposed a spending restriction on MOREnet state appropriation of \$6.6 million, reducing restricted state appropriations to zero for FY2011. Revised budgets call for an increase in the auxiliary fund of \$2.4 million in miscellaneous income and \$5.1 million in expenditures and declines in transfers to plant of \$1 million and ending balances of \$1.7 million.
