University of Missouri System FY2016 Budget

Introduction and Overview

The University of Missouri System Operating Budget Book presents summary information on total sources and uses of the University's funds by major fund groups. Additional information is provided on the current funds which include resources of the University that are expendable for any purpose directly related to the primary missions of the University, i.e., instruction, research, and public service, as well as related support services. Current funds can be divided into restricted and unrestricted funds. Restricted funds are those that are restricted in use by the donor or supporting agency.

Budget planning and development was guided by the campus strategic plans and the policy decisions and planning parameters of the President and the Board of Curators. Net tuition and fee revenues included in these budgets are based on tuition and required fee rates approved by the Board. The increase in net fee revenues included in the budget is driven by enrollment changes related to student mix, enrollment growth, and financial aid combined with approved rate increases in tuition, supplemental course fees, and other required fees.

Assumptions for planning included the following:

- State appropriations for the University of Missouri are subject to a 3.0% withholding by the State of Missouri. The University's budget was developed and entered into the University's financial system based on the assumption that state appropriation revenues would equal 97.0% of state funds appropriated to the University. State appropriations for general operations include \$5.6 million in performance funding allocated to the campuses for strategic priorities and \$848,750 in legislative directives at the campuses
- Tuition and fee budgets are based on the tuition and fee rates as approved by the Board of Curators in February 2015. Changes in enrollments, student mix, and institutional aid are determined by the individual campuses. In general enrollments are planned to increase modestly from FY2015 and increased investments in institutional student aid are planned.
- The following salary and wages guidelines were used by the campuses for FY2016 budget planning:

Each campus will recommend for Board approval a salary and wage budget consistent with campus needs. Budget increases should support faculty and staff salary merit, market and equity adjustments consistent with the campus's faculty and staff recruitment and retention strategy as well as their position relative to their peers.

Salary and wage budget increases varied by campus from a 0%-2% increase in the salary and wage base.

- The flat benefit rate assessment remained unchanged at 27.72% of eligible salaries plus applicable FICA charges.
- The budget reflects actions taken by the campuses to balance their budget and reallocate resources to fund their strategic priorities.

The budgets reported in this document are based on the original detail budgets for the University as entered into the Hyperion Budget system for the fiscal year.
