Scope

Addresses policies for individuals in possession of a JP Morgan University One Card, as cardholders or as custodians of cards, and those with Approval Authorization for card transactions.

Reason for Policy

Responsibility for financial control and stewardship of the One Card program rests with each department. The department is responsible for ensuring that Cardholders and Approving Officials perform their purchasing duties with competence and honesty, and to monitor the effectiveness of the accountability structure. With effective controls the department can safeguard University Assets and ensure reliability of financial information.

Policy Statement

Purpose

The University of Missouri System One Card program is designed to provide a more efficient means of making routine purchases and payments by reducing paperwork, allowing for more control at the school or department level, and streamlining the transaction cycle.

Card Types

One Cards can be established with one of the following options that are defined by Merchant Category Code (MCC) Groups. Those groups are:

Purchasing Only - A One Card that is only used to purchase allowable goods and limited services.

Travel Only – A One Card that is used only for transportation expenses and hotel room fees.

Purchasing with Travel – A single One Card that has both the Purchasing and Travel options assigned.

Student Card – A One Card issued to a campus department instead of an individual which is to be used **only by Students**. Cards will be assigned MCC Groups as appropriate. Faculty and Staff with payment needs may be issued one of the above card types.

Card Limits

Each group (purchasing, travel) has an associated maximum limit for single transaction and monthly cycle. Recommended guidelines are provided on the Application. Limits for each group shall be based on an individual Cardholder's purchasing needs. If needs exceed recommended guidelines, business justification must be provided to and approved by UM System Supply Chain.

Issuance of One Card

A One Card Cardholder must be a University of Missouri faculty or staff member, or have a courtesy HR appointment, who shall complete and sign the One Card Application and Agreement form. The Agreement must also be signed by the Approving Official, and the department's FIN Structure Responsible Individual to acknowledge the responsibilities and use of the One Card prior to submission to Supply Chain Operations.

Cardholders must complete required policy and procedure training before the One Card is released into their possession.

Card Security

The University One Card should always be protected and kept in a secure location. The only person authorized to use the One Card is the Cardholder whose name appears on the face of the card. Under no circumstances may a Cardholder allow another individual to use his or her One Card.

Allowable and Prohibited Purchases

The University One Card must be used in accordance with payments associated with official University business as outlined in the Payment Quick Reference Guide.

All purchases shall be made in accordance with University policy for expenses associated with official University business.

Tax Exemption

The University is a tax exempt entity. The Cardholder is responsible for ensuring that sales tax is not charged at the time of purchase, where applicable.

Stringing

The stringing, or splitting, of purchases with the University One Card is prohibited.

Required Documentation

A receipt must be maintained to support every transaction made with the One Card. In some cases, additional supporting documentation may be required.

Select transaction types require additional electronic documentation. See Procedures for details.

Lost/Stolen Cards or Fraudulent Charges

In order to protect the University's interest, lost or stolen One Cards must be reported to JPMorgan and the Cardholder's Approving Official. Supply Chain Operations must also be notified. The Cardholder can be liable for all charges incurred until the card is reported lost, stolen or misplaced.

Fraudulent charges (not associated with intentional misuse by a Cardholder) must be disputed within 90 days of the transaction date or the department will be held accountable for transactions.

Cardholder Terminations and Transfers

Cards must be canceled if a faculty or staff member terminates employment, transfers to another department, or has a change in duties that no longer require use of the card. Cancellation must occur within 48 hours of change in status.
